of Panathlon International

Circular No.23/18

Rapallo, 14 December 2018

Object - Privacy – Regulation EU/2016/679 General Data Protection Regulation (GDPR)

Dear Presidents,

With reference to the above, please find enclosed Panathlon International's privacy policy, now in line with the new law provisions. This policy must be **completed and signed by each Member**.

The data supplied by the Members are considered "generic information": according to the new regulations, it is mandatory to "inform" the data subject that the data he/she has supplied will be processed and to obtain a simple statement whereby the data subject confirms to have received such information. In the light of the above, it will thus be necessary to obtain the explicit consent to data processing from the data subject.

The consent form mentions the various levels of data circulation (club, area, district, international) so that all the information needed may be provided in a single form (please check and complete it, if needed).

The forms mentioned above shall be filed at the Club's headquarters, whereas only the "refusals to give consent" shall be notified to the International Headquarters.

Please do not hesitate to ask if you need further information. Yours sincerely,

Simona Callo
General Secretary
